

## Resort Information

**This sheet contains all important information for planning the World Airlines Ski Championships (WASC)!**

### **Rulebook:**

The rulebook is the governing and prime source for planning the event.  
The race rule section has to be understood and has to be on hand

### **Fall Meeting:**

Information regarding the Fall Meeting. At the Fall Meeting the resort and the Board of IASF meet for the final planning of the WASC.

### **Checklists/Minutes Fall Meeting:**

The checklist is a working tool. It covers about 90% of the event.  
Not all items have the same importance for different ski resorts.  
As well as there might be items not in the list the respective resort may find necessary.  
We also use it as protocol of the group work we do during our Fall Meeting.

### **IASF Awards:**

Shows the awards needed regarding the discipline, what kind of (trophy or certificate) and how many.  
You will find the same information in our rulebook.

### **Calculation of results:**

We do have team results and individual results. This page shows and explains the way the results have to be calculated.

### **Calculation of Team Overall Results:**

This is an excel file for the race department that shows an easy way to calculate our overall team results. (Alpine, Snowboard, Nordic)

### **Seeding lists:**

To be handed out to the Team Captains upon registration.  
These forms are for the Team Captains to seed their racers.  
They are due at the Team Captains meeting before the respective race day.  
The Race Department needs these forms to create the starting list.  
Spare forms are needed at the Team Captains Meetings for late entries.

## Resort Information

### Team captains Notes form:

To be handed out to the Team Captains upon registration.

This form is for the Team Captains to make notes during the Team Captains Meetings regarding the races.
